

This issue: August 2022

What's been happening?

Machining parts for Bogie assemblies

**CNC Machining/ Assembling Chain
Rollers**

CNC Machining Roller Spacers

Welding Pipes and Flanges

Fabricate, Sandblast & Paint Head Feed Chute

Fabricate Discharge Chute

Fabricate Intermediate Chute

Fabricate, Sandblast & Paint Head Transition Feed Chute

H·E·M·E PTY LTD
PROFESSIONALS IN PRECISION

Overhaul of 22T Crusher

Repairs to Screen deck

Repairs to Crusher Drums

Overhaul of Pulley's

Meet the team – Anthony Hellmuth, Managing Director

Qualifications:

- Advanced Diploma of Engineering (Mechanical MEM60112)
- CN121 Fitter, Turning and Machining
- Fitter (Diesel)
- Certificate II in Automotive (Mechanical-Air Conditioning)
- Helicopter Pilot

Tony enjoys mentoring our apprentices to be the best tradesmen they can be. His skill and knowledge he imparts throughout the business is invaluable.

Away from work, Tony likes to tend to his cattle farm animals, vegetable gardens and flying.

What's new in the mechanical engineering industry?

Employment of mechanical engineers is projected to grow 7 percent from 2020 to 2030, about as fast as the average for all occupations. About 20,200 openings for mechanical engineers are projected each year, on average, over the decade.

Mechatronics is a recent addition to the mechanical engineering branch and refers to a combination of mechanical, computer and electronic engineering. Hence it is said to be a hybrid branch which cover several fields at the same time.
